Operations/Work/Job Activity covered by this assessment: To control the issue of Powder

**Scope:** Stores department, Spraying Department, Blasting Department

**Pre requisites:** Daily register, daily issue slip , Powder bottle with label batch no

**Work Instructions:**

1. The spray or blasting personnel have to come to the stores to collect the powder
2. Stores in charge will hand over the powder to the person and make an entry of issue in the daily register.
3. The issue of the powder will also be communicated to the purchase personnel by means a summarized daily material slip at end of each day for updating of powder stock in records
4. Before spraying the customer components, the name on label of the powder bottle will be verified against the name mentioned on the job card.
5. Additionally, the batch no of the powder is to be mentioned on the job card for tracking purposes
6. Any excess powder sealed bottles will be returned to the stores department if not used before the end of the day.
